Mechanic/Inspector: _____ Vendor: _____

Address: _____ _____ _____ _____
(Street Address) (City) (State) (Zip)

This Inspector meets the qualification requirements in Section 396.19 ☐ Yes Inspector Qualifications
This Inspector meets the qualification requirements in Section 396.25 ☐ Yes Brake Qualification

*Trailer B-PM Service must be completed every 180 days and includes greasing the trailer.
* Trailer C-PM includes the federal annual inspection that must be completed every 12 months.
*** Repair Codes: L= Lubricated R Repairs Needed A= Adjusted or Replaced X= Serviceable**

Trailer B-PM Instructions:	**Repair Code:**
1. Registration and Inspection: Check registration and license plates for validity. Check Federal Annual Inspection Decal for expiration date. Check condition of registration holder. ***Report missing or expired registration.**	☐___
2. Body Inspection: Check the header board for cracks or damage. Check the fifth wheel plate and king-pin for wear or cracks. Check the floor boards, side rails, ICC bumper, mud flaps, placards, rear door, rear rollers, and door hinges.	☐___
3. Frame Inspection: Check all cross members, sub-frames, sliding axel assemblies, gussets, and slide locks for cracks, excessive play, or heavy rust. Inspect Moffett mounting kit if installed. *** Grease and inspect landing gear system.**	☐___
4. Rear Coupler Inspection: Check the pintle hook, D-Rings, glad hands, shut off valves, and inspect light cord receptacle, front draw bars, draw bar eyes, and saddle mounts. *** Lubricate pintle hook locks with spray lube.**	☐___
5. Suspension: Check for broken springs, loose or broken U-Bolts, loose or worn torque arms, loose or cracked saddles and spring hangers, worn equalizer bushings, air bag damage, and air bag leveling valves. ***Torque U-Bolts if found to be loose.**	☐___
6. Inspect Brakes: All brake shoes must be free of cracks, oil contamination, and at least ¼ " lining minimum. Check brake chambers, brake valves, and air tanks. *** Check brake adjuster travel with air applied. Use DOT allowable travel guidelines.** *** Grease the S-Cam bushings and slack adjusters for each wheel.**	☐___
7. Wheels and Hubs: Check for wheel seal leaks. Check for cracked spokes or hubs, check wheels for loose lug nuts (torque wheel lug nuts if they are loose). *** Check and fill oil hub caps.** ***Replace any leaking oil hub caps.**	☐___
8. Tires: Inspect all tires for side wall damage, proper inflation, nails in the tread, and tread wear. Record tread wear on PM sheet. Remove tires at 2/32 " tread. *** Inflate all tires to the tire pressure indicated on the sidewall of each tire.**	☐___
9. Lights and Reflectors: Check all tail lights, marker lights, turn signals, and reflective tape. Inspect light cord receptacles, wiring junction boxes, and wiring. *** Repair all lights and replace missing reflective tape.**	☐___
10. Install a PM Decal: Next to the registration holder and include the new date of the B-PM. *** Attach this PM sheet to invoice for payment.** *** Report major defects to the fleet department.**	☐___

Trailer C-PM Instructions:	**Repair Code**
1. Complete all of the B-PM Service Items: Repair all safety related defects found during B-PM. Report major defects to Fleet department.	☐
2. Federal Annual Inspection requirements listed on the back of this PM form must be met to pass federal Annual C-PM Inspection.	☐
3. Install Federal Annual Inspection decal on the trailer head board near the registration holder. *** Remove all expired Federal Annual Inspection Decals.**	☐___
4. Attach this PM sheet to invoice for payment and install the Manila copy in the registration holder	☐___
